EMPLOYMENT

Pew Research Center, Washington, DC (USA)

Associate Director. Data Labs.

Feb. 2021–Present

- (a) Led a team of researchers and engineers working in computational social research projects. Set the technical and methodological standards for data science and directed the modernization of the data and analytical infrastructure of the organization.
- (b) Updated the internal management processes including hiring, onboarding, performance evaluation, communication practices, and project management. Set up collaboration methods with data scientists embedded in other teams.
- (c) Worked with senior leadership to update the vision and mission statements for data science in the organization and the strategic plan of the team. Redesigned the career progression of the data science and engineer professional families. Consolidated the open-source, reproducibility, and data sensitivity policies.
- (d) Managed data science projects with national and international media attention.

Westat, Rockville, MD (USA)

Senior Data Science Manager (Principal Statistician). Statistics Unit.

Dec. 2020–Feb. 2021

Data Science Manager (Senior Statistician). Statistics Unit.

Jul. 2018–Dec. 2020

Senior Data Scientist (Senior Statistician). Statistics Unit.

Oct. 2015–Jul. 2018

- (a) Built and led a data science practice to integrate machine learning, new data sources (including text, images, audio, and video), and real-time dashboards into existing processes. Served as principal consultant for data science and machine learning engineering.
- (b) Standardized a research infrastructure for statistics and data science and consolidated the technological stack for machine learning engineering used in the company. Headed the adoption of modern practices for statistical software development in all technical teams.
- (c) Managed cross-functional R&D projects with applications to public health, education, clinical trials social policy, and public opinion. Collaborated in the design and writing of responses to grants and RFPs from local, state, and federal agencies as technical expert.

YouGov, Palo Alto, CA (USA)

Statistical Scientist. Scientific Research Group.

Nov. 2014–Oct. 2015

Senior Analyst. Scientific Research Group.

Apr. 2013–Nov. 2014

- (a) Expanded the toolkit used for internal operations which included weighting and analysis of non-probability samples, construction of pseudo-sampling frames, and report automation for academic and market research. Automated data pipelines deploying to client-facing datamarts. Built tools for the monitoring of sample quality provided by vendors.
- (b) Designed and led projects for the C-suite to experimentally evaluate the interview system and the standard interview practices in the U.S. and the U.K. Developed NLP tools for automatic classification of survey questions, re-engineered the existing toolkit for Bayesian conjoint analysis, and built a system for open-ended classification in large-scale, multilingual online surveys.

TECHNICAL
SKILLS

Languages: Python, JavaScript, Go

Experience with full-stack development in Python using Flask for synchronous and asynchronous microservices including front-ends in AngularJS. Highly-skilled with the data science stack for data engineering, machine learning, and scientific computing (TensorFlow, spacy, transformers, numpy, scikit-learn, pandas).

Statistics: R, Python, Stan/Jags, Stata

Analysis of social and behavioral data (experimental and observational) using frequentist and Bayesian approaches using the R and Python stack. Experience in statistical learning, choice modeling, longitudinal and survival analysis, network analysis, and spatial statistics. Developer of R packages for scientific applications in S3 and S4

Storage: SQL (MariaDB, PostgreSQL, SQLite), Presto, MongoDB, Elasticsearch, Redis
Experience in database design and ETL using raw SQL and Object Relational Mapping systems like SQLAlchemy.

Development: Amazon AWS, Docker, Kubernetes, Prefect
Software development in Agile and Lean teams. Experience in CI/CD environments in AWS, GitLab, and GitHub and with cloud-native and on-premise architectures. Leadership in computational reproducibility and MLOps.

EDUCATION

Ph.D. in Political Science, *New York University* 2013
Committee: Adam Przeworski (chair), David Stasavage, Leonard Wantchekon
M.A. in Political Science, *New York University* 2009
M.A. in Social Sciences, *Juan March Institute*, Madrid 2005
M.A. in History, *University of Vigo*, Ourense 2004
B.A. in History, *University of Vigo*, Ourense 2002

BOOKS

1. Jungherr, A.; **Rivero, G.** and Gayo-Avello, D. (2020) *Retooling Politics: How Digital Media are Shaping Democracy*. Cambridge University Press.
Reviews: *International Journal of Press/Politics, Medien & Kommunikationswissenschaft*
2. **Rivero, G.** (2011) *Análisis de datos incompletos en Ciencias Sociales*. CIS, Madrid.
Reviews: *Metodología de Encuestas*
